Etc.)</p>	<ul style="list-style-type: none"> • Includes Gunkanjima, which is a candidate for World Heritage and one of the more unusual things to see in Nagasaki. It's amazing how nature has taken over the island which was once the most densely populated place in the world. • Enjoy the water from natural hot springs originating deep in the ground and warmed by the volcano. • Eat traditional Japanese cuisine and enjoy a night in a Japanese Inn with tatami; chance to wear yukata. • Fantastic views of the surrounding countryside and mountains from the ropeway. • Experience the natural environment of Unzen first hand during the hike. • See the power of the Volcano at the Unzen Disaster Memorial Hall; one of a few sites in the world where you can see the effects of a pyroclastic flow. • Take home a souvenir of your own hand made Nagasaki glass.
